

PhoneSoap Pro Twice the bulbs, half the time!

- Easier to Use
- Phone Fit Guarantee
- Ready in just 5 minutes
- Cleans How You Want
- Enhanced Reflectivity

Model NO.	PhoneSoap Pro
Sanitizing	Powerful UV-C lights and a reflective inner surface allow the light to surround your phone and ensure the destruction of any germs. PhoneSoap Pro kills germs in just 5 minutes - half the time as our standard phone sanitizers. Nano suction feet keep the PhoneSoap firmly planted during use, making it easier to open, close, and maneuver. While PhoneSoap Pro was created to focus on smartphones, anything you put inside will be safely sanitized. If it fits, it cleans.
Method	Sanitizing takes 5 minutes. PhoneSoap Pro allows you to disinfect your phone automatically when placed inside, or at the touch of a button. Automatic or manual, the choice is yours. A blue indicator turns on while your phone is being sanitized and shuts off when the process is complete.
Sanitizing time	5 minutes
Universal charger	The PhoneSoap Pro has a standard 5V USB port in the back next to the unit's power port. Plug your own charge cable into the back of the PhoneSoap and into your phone to charge. The PhoneSoap Pro unit is powered via a Wall outlet. Any USB charged device can be safely charged and sanitized inside.
Available colors	Blue, Charcoal, Lavender, Mint, Red and White
Included with purchase	PhoneSoap Pro, USB-C power adapter.
Inner dimensions (sanitizing space)	Millimeters: 181 L X 111 W X 18 H Please check your phone dimensions to confirm it fits inside.
Outer dimensions	Millimeter: 244 L x 136 W X 50.8 H
Compatibilty	Fits all Apple, Samsung, and Google phones, such as the iPhone 10 XS, Galaxy A9s, and Pixel 3, as well as other large phones.
